Motor vehicle products recall - Early-warning rules

1 Scope

This document establishes the early-warning process, early-warning initiation conditions, early-warning analysis, early-warning issuance and response in the management of motor vehicle products recall.

This document applies to issuing risk early-warnings in the management of motor vehicle products recall.

2 Normative references

The contents of the following documents, through normative references in this text, constitute indispensable provisions of this document. Among them, for dated references, only the edition corresponding to that date applies to this document. For undated references, the latest edition (including all amendments) applies to this document.

GB/T 34402 Safety of motor vehicle product - Guidelines for risk assessment and risk control

GB/T 37230 Societal security - Emergency management - Guidelines for colour coded alerts

GB/T 39603 Guidelines for the recall effectiveness evaluation of defective motor vehicle products

3 Terms and definitions

The following terms and definitions apply to this document.

3.1

Risk early-warning

The behavior of issuing warning information to the public to minimize the risk of dangerous events or dangerous situations that may exist in motor vehicle products.

3.2

Rules of early-warning

Rules and guidelines to be followed when issuing warning information.

3.3

Rate of early-warning

The warning rate which is divided according to the urgency, development trend and degree of possible harm of the abnormal state or dangerous situation of motor vehicle products.

[Source: GB/T 35253-2017, 3.8, modified]

3.4

Index of early-warning

Influencing factors to be considered for classifying rate of early-warning.

3.5

Society tolerance

The degree of tolerance of society at different times, different geographical environments, and different industrial development conditions to dangerous events or dangerous situations, etc. of motor vehicle products.

3.6

Risk perception

The judgment made by people about unfavorable outcomes that are probabilistically translated into signs or symbols.

4 Early-warning process

The early-warning process includes two parts: early-warning analysis and early-warning issuance; as shown in Figure 1.
