Announcement of Certification and Accreditation Administration of PRC

No.10 [2018]

Announcement of CNCA on the Reform Matters of Compulsory Product Certification Mark

中国国家认证认可监督管理委员会公告

2018 年第 10 号

国家认监委关于强制性产品认证标志改革事项的公告

In order to thoroughly implement the spirit of the 19th National Congress of the Communist Party of China, further implement the requirements of the reform work of the State Council's "streamlining administration, delegating more powers, improving regulation, and providing better services", streamline and integrate the compulsory certification procedure and facilitate the affixing of the China Compulsory Certification mark (hereinafter referred to as the "CCC mark"), CNCA decides to reform the issuance management of CCC mark. The relevant matters are now announced as follows:

1. Cancel the review and charge of the printed/moulded CCC mark

- 1) From March 20, 2018, cancel the reviewing that was conducted by designated mark issuance management body (Beijing Zhongqiang Certification Product Mark Technology Service Center), for printed/moulded CCC mark; and cancel the corresponding review fees. CCC mark shall be printed/moulded by the certified enterprises themselves.

- 2) The self-printed/moulded CCC mark of the certified enterprise shall be in accordance with “China Compulsory Certification Mark Affixing Management requirements” (see Attachment 1).

2. Issuance management of the standard-specification CCC mark

- 1) From May 1, 2018, the designated certification bodies shall be responsible for the issuance management of the standard-specification CCC mark. The charges shall be in accordance with the “Notice of the National Development and Reform Commission on Releasing Some Charges for Inspection and Testing Services” (Fa Gai Jia Ge [2015] No.1299).
- 2) Before May 1, 2018, each designated certification body shall complete all preparations for the issuance management of the standard-specification CCC mark, including CCC mark issuance management procedures, contacts and telephone numbers, etc., and announce them.
- 3) The designated mark issuance management body (Beijing Zhongqiang Certification Product Mark Technology Service Center) is responsible for the issuance management of the standard-specification CCC mark until May 31, 2018; and will no longer be responsible for the issuance management of the standard-specification CCC mark from June 1, 2018.

3. Simplify and integrate the categories of CCC mark

From March 20, 2018, CCC mark no longer includes subdivisions, such as S (safety products), EMC (electromagnetic compatibility), S&E (safety and electromagnetic compatibility), F (firefighting) and I (information security). The original CCC mark can be eliminated naturally according to the mould replacement cycle and product inventory.

4. Strengthen the follow-up supervision of affixing of CCC mark

When the certified enterprise is affixing the standard-specification CCC mark and the self-printed/moulded CCC mark, it shall strictly follow the relevant requirements of “China Compulsory Certification Mark Affixing Management Requirements” and “China Compulsory Certification Implementation Rules”; establish its own CCC mark usage and management system; and record and archive the use of CCC mark.

The designated certification body shall strengthen the supervision and management of CCC mark; guide the certified enterprise to correctly use CCC mark; and implement the main responsibility of the certification body.

Local certification supervision and management departments [[Translator: authorities](#)] at all levels shall strengthen the supervision & management and

Figure 1

4. Color of CCC mark

The color of the uniformly printed standard-specification CCC mark is white in bottom-plate and black in pattern. If using methods such as printing, mould pressing, moulding, silk screen, painting, etching, engraving, branding, stamping (the above methods are hereinafter referred to as printing/moulding) to affix CCC mark on the product or the product nameplate, then the color of the bottom-plate and pattern may be selected according to the appearance of the product or the overall design of the nameplate.

5. Affixing location of CCC mark

The uniformly printed standard-specification CCC mark must be affixed to the obvious position of the outer body of the certified product. For printed/moulded CCC mark, CCC mark shall be printed and moulded on the obvious position of the nameplate or the outer body of the product. If CCC mark cannot be affixed on the body of the related certified product, then CCC mark must be affixed on the smallest-package of the product and in the accompanying documents.

If a certified special-product is not able to be affixed with CCC mark in accordance with the above specifications, then special style "China Compulsory Certification" mark must be printed or moulded on the product body.

6. Affixing requirements for the printed/moulded CCC mark

(1) Affixing requirements for the printed/moulded CCC mark's basic style

CCC mark can be enlarged or reduced according to the basic pattern proportion. However, it must not be deformed, and it shall ensure that the certification mark pattern is clear and recognizable.

(2) Affixing requirements for printed/moulded CCC mark's special style

The following products in "Catalogue" are allowed to be affixed with the special style CCC mark by the certified enterprises.

a. Wire and cable products

When the special style mark is used, the English abbreviation "CCC" of "China Compulsory Certification" shall be printed. The font size shall be compatible with the wire and cable product's external dimensions, as shown in Figure 2.
