Republic of China**

About the translator Wayne Zheng

Wayne Zheng was borne in China in 1962 and migrated to Singapore in 1992. He is now the Sales Manager (Founder and Managing Director) at www.ChineseStandard.net. Wayne Zheng had more than 10 years extensive expertise and hands-on working experiences, through his then-employment as “China Certification Program Manager” at BlackBerry Beijing, and “Product Safety & Compliance (PS&C) Manager” at Motorola Singapore:

- CNCA / China Compulsory Certification (CCC) regulations.
- Hands-on program experience with regulator CNCA for CCC mark’s compliance, approval and management.
- Was an authorized representative by then-employer BlackBerry (RIM) to liaise with Chinese regulators, authorities, certification bodies and designated laboratories – including CNCA, CQC, Beijing Communication Authority, Beijing Administration of Quality Supervision Inspection and Quarantine.
- Hands-on program experience with certification body CQC for “certification entrusting”, type test, initial factory audit, regular / annual factory audit (i.e. the “after-certification supervision” in this Rules).
- Manage, plan, guide and site-visit the global factories / suppliers’ global factories (i.e. the “manufacturing enterprises” in this Rules) in North America, Europe and China for CQC initial factory audit and regular annual factory audit (after-certification supervision).
- ISO Process Auditor, certified by Motorola USA & Motorola Singapore
- PMP, certified by Project Management Institute USA.

0 Introduction

This Rules is established based on the safety risk and certification risk of vehicle travelling data recorder. It stipulates the basic principles and requirements for the implementation of China Compulsory Certification for vehicle travelling data recorder.

This Rules can be used with other general rules issued by Certification and Accreditation Administration (CNCA), such as “China Compulsory Certification Implementation Rules - Manufacturing Enterprise Classification Management, Certification Mode Selection and Determination”, “China Compulsory Certification Implementation Rules - Utilization of Manufacturing Enterprise Testing Resource and Other Certification Results”, “China Compulsory Certification Implementation Rules - Factory Inspection General Requirements”.

The certification body shall make principles for certification according to the general implementation rules and this Rules and implement them accordingly.

Manufacturing enterprise shall ensure that their certified products are capable of sustaining the compliance with the certification and are compatible with the requirements of the standards.

1 Application scope

This Rules applies to vehicle travelling data recorder (including satellite positioning device that has the function of travelling record) which is installed on and used by school bus, highway bus and tourism bus, public bus without passenger standing area, transport vehicle of dangerous goods, semi-trailer tractor, and truck of which the total mass is equal to or greater than 12,000kg etc. as specified in GB 7258 “Safety specifications for power-driven vehicles operating on roads”.

Due to the changes in the law, regulations or related product standards, technology, industry policies and other causes which may change the applicable scope, the announcement released by CNCA shall be final and conclusive.

2 Certification standards

Certification standards are shown in Attachment 2 “Standards and test items of compulsory certification of vehicle travelling data recorder”.

In principle, the latest versions of above standards that are issued by the National Standardization Administration shall be executed. When other versions are required to use, then it shall be executed according to the applicable relevant standards issued by

CLIENT shall guarantee that all the samples provided are consistent with actual products. Certification body and laboratory shall inspect the authenticity of the samples. If laboratory has any doubt on the authenticity of the samples, it shall explain the situation to certification body and handle accordingly.

6.1.3 Items of type test

Items of type test are shown in Attachment 2 “Standards and test items of compulsory certification of vehicle travelling data recorder”.

6.1.4 Implementation of type test

Type test shall be conducted in the laboratory designated by CNCA. Laboratory shall conduct the type test to the samples, integrally record the whole test and archive for retaining, so that the test process and results are traceable.

6.1.5 Type test report

Certification body shall specify a unified form of the type test report.

After the type test is completed, the laboratory shall, in time, provide the type test reports. Test reports shall contain the description of certification-related information for all products within the application-unit. CLIENT shall ensure that it is able to provide the complete and valid type test report to certification body and laws enforcement authorities during the after-certification supervision.

6.2 Initial factory inspection

Initial factory inspection shall be proceeded after the certification plan is determined. If necessary, type test and initial factory inspection may be proceeded simultaneously.

6.2.1 Basic principle

Certification body shall, in certification implementation detailed-rules, clarify its basic requirements of the quality assurance capability, product conformity, products-standards compliance control of manufacturer / manufacturing enterprise of vehicle travelling data recorder.

CLIENT and manufacturer / manufacturing enterprise shall, according to the requirements in certification implementation detailed-rules, establish, implement and continuously maintain manufacturing enterprise’s quality assurance capability, product conformity, products-standards compliance control system, so as to ensure that the products can continuously meet the certification requirements.

For those certified manufacturers and manufacturing enterprises, certification body may appropriately adjust the time and contents of initial factory inspection, and clarify them in certification implementation detailed-rules.

Certification body shall formulate the contents and requirements of market sampling test in the certification implementation detailed-rules.

7.4 Frequency and time of after-certification supervision

Based on manufacturing enterprise classification management, certification body shall adopt different frequency of after-certification supervision to different types of manufacturing enterprises. The supervision time shall be made in a reasonable way. Detailed requirements shall be specified in the certification implementation detailed-rules.

7.5 Records of after-certification supervision

Certification body shall appropriately record and archive the process of after-certification supervision, so that the process and results are traceable.

7.6 Evaluation on after-certification supervision

Certification body shall comprehensively evaluate the conclusion of follow-up inspection; conclusion of sampling test; and relevant materials / information. If the evaluation is PASS, it may continue to maintain the certificate and use of certification mark. If the evaluation is Not-PASS, certification body shall suspend or revoke the certificate according to the corresponding situations; and announce it publicly.

8 Certificate

8.1 Validity of the certificate

This Rules covers the 5 year valid period of product certificate. Within the valid period, the validity of the certificate is maintained by depending on the “after-certification supervision” of the certification body.

Before the certification is expired, if it needs to continue to use, CLINET shall put forward the certification entrusting within 90 days before the expiry date. If the newest “after-certification supervision”, within the certificate validity, is PASS, then certification body shall directly renew the certificate after receiving the certification entrusting.

8.2 Contents of the certificate

Contents of the certificate shall comply with Article 21 in “China Compulsory Certification Management Method”.

8.3 Change / expansion of the certificate

After certification, when there are changes on certificate, product features or other items specified by certification body, or when the CLIENT needs to expand the

The certification mark shall be applied at obvious place of mainframe's front panel, and it is easy to be identified after installation.

10 Charges

Certification body and laboratory shall base on the national provisions of China Compulsory Certification fees to charge the fees.

Certification body shall, based on the initial factory inspection fees, after-certification supervision re-inspection man-day fees in national provisions of China Compulsory Certification fees, reasonably determine the specific man-day fees.

11 Certification responsibility

Certification body shall be responsible for the certification results.

Laboratory shall be responsible for the test results and test reports.

Certification body and its inspectors shall be responsible for the factory inspection conclusion.

CLIENT shall be responsible for the submitted materials, and samples' authenticity and legality.

12 Certification implementation detailed-rules

Certification body shall formulate scientific, reasonable and feasible certification implementation detailed-rules, according to the principle and requirements of this Rules. Certification implementation detailed-rules shall be publicly announced, after filed to CNCA. Certification implementation detailed-rules shall at least include the following contents:

- (1) Certification procedure and time limits;
- (2) Certification mode and relevant requirements;
- (3) Classification management requirements of manufacturing enterprise;
- (4) Certification entrusting materials and relevant requirements;
- (5) Requirements for sample test;
- (6) Requirements for initial factory inspection;
